.After skin contact: Cool skin rapidly if contacted with molten product. Obtain medical attention for thermal burn.

.After eye contact: Immediately flush eyes with plenty of water for at few minutes, occasionally lifting the upper and lower eyelids. Get medical aid immediately.

.After swallowing: If symptoms persist consult doctor.

5 Fire-fighting measures

.General Information: As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Decomposes at high temperatures, resulting in toxic and corrosive products. Containers may explode when heated.

.Extinguishing Media: Use water spray, dry chemical, carbon dioxide, or chemical foam. Cool containers with flooding quantities of water until well after fire is out.

.Special fire & explosion hazards: Dense smoke emitted when burned without sufficient oxygen. Heating or burning will release toxic gases or fumes, Negligible explosion hazard.

6 Accidental release measures

- .Small Spill and Leak:** This product is solid, Small leak is meaningless, where have scattered only need to pick up it.
- .Large Spill and Leak:** No danger, only need to recycling collection the leak products and repackaging.

7 Handling and storage

- .Handling:** Handling of plastic may form nuisance dust. Protect personnel. Pneumatic material handling and processing equipment may generate dust of sufficiently small particle size that, when suspended in air, may be explosive. Dust accumulations should be controlled through a comprehensive dust control program that includes, but is not limited to, source capture, inspection and repair of leaking equipment, routine housekeeping and employee training in hazards. See NFPA654.
- .Storage:** Keep in a cool place. Ground all equipment containing material. Combustible materials should be stored away from extreme heat and away from strong oxidizing agents.

8 Exposure controls/personal protection

- .Ventilation and Engineering controls:** No special ventilation and engineering controls are required, handling of these products need keep good ventilation.
- .Respiratory Protection:** No special respiratory protection is required for use of these products. If respiratory protection is needed, use only protection authorized in the U.S. Federal OSHA Standard, applicable U.S. State regulations.
- .Body Protection:** No special protective clothing is required.
- .Protective Gloves:** Unnecessary, When need choose rubber gloves or other insulated gloves.
- .Eye Protection:** Unnecessary, When necessary wear chemical goggles or face shield.
